

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use 'till the sores disappeared." Mrs. IBA O. BROWN, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

The Duty of Mothers.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "women must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. A young woman suffers severely she needs treatment, and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham's Laboratory of Lynn, Mass., and secure from a woman the most efficient advice without charge.

Mrs. August Phalgraf, of South Byron, Wis., mother of the young lady whose portrait we here publish, wrote in January, 1899, saying her daughter had suffered for two years with irregular menstruation—had headache all the time, and pain in her side, feet swelled, and was generally miserable. She received an answer promptly with advice, and under date of March, 1899, the mother writes again that Lydia E. Pinkham's Vegetable Compound cured her daughter of all pains and irregularities.

Write to the world equals Lydia E. Pinkham's great medicine for regulating women's peculiar monthly troubles.

Picking up a short handled axe the infuriated man advanced on the woman, at the same time declaring that he would chop her head off. Mrs. Orcutt says that she then drew a revolver and fired three times. Two shots took effect in the breast and one struck the man's right wrist. She had carried the revolver owing to previous threats of her husband against her life.
