## Grand Demonstration For County Division.

Fully 350 Citizens from all Sections Within the Limits of the Proposed New County Meet to Discuss Situation. All Pleased That Move is Made Openly—Boundaries May be Changed Slightly.

Fully three hundred and fifty people attended the smoker given by the Commercial Club Saturday evening, the occasion being the first decisive move this year in the interest of county division. A number of people from Ahsahka, and many farmers were present from various localities, and all took great interest in the meeting. The committee appointed at a former meeting to draw the proposed lines for a new county made their report, showing the boundaries outlined about as follows:

Commencing at a point on the north boundary line of Nez Perce county between townships 41 and 42 and extending north to incorporate five townships of Shoshone county; thence east to the Montana state line; thence south along the state line to the division line between Nez Perce and Idaho counties; thence westerly to the range line between ranges 7 and 8, and thence south to the intersection with Middle Fork of the Clearwater river; thence along the center of the Middle Fork and main Clearwater river to the mouth of Lawyer's canyon; thence up Lawyer's canyon to the intersection of the range line between ranges 2 and 3 east; thence north along said range line to an intersection with the Clearwater river; thence down said Clearwater river to an intersection of the township line between townships 34 and 35; thence west 4 miles; thence north two miles; thence west to Little canyon; thence down Little canyon to an intersection with the township line between townships 35 and 36, thence west along said township line to range line between ranges 1 and 2 west; thence north along said range line to an intersection with the reservation line; thence easterly along said reservation line to an intersection with the Boise Meridian, thence north along said meridian to an intersection with the south boundary line of Latah county; thence easterly along said boundary line to the southeast corner of Latah county; thence north along the east boundary of Latah county to the place of beginning.

The towns included in the proposed county are: Trumbull, Dent, Teakcan, Ahsahka, Orofino, Peck, Gilbert, Russel, Kamiah, Greef, Pierce, Fraser, Weippe, Woodland, Harrison, and Glenwood.

Of course these boundaries may be changed in a few places, but they were given merely as a basis upon which to work, and they will be presented to the other towns effected by the division with a view to getting together and agreeing, if possible, upon boundary lines which will be acceptable to those towns or communities directly interested. Heretofore this matter of county division has been fought out by a few people in star chamber caucuses and it has proven unsatisfactory and nothing has been accomplished. Therefore, so far as Orofino is concerned, and any part the people here may take in the matter, it will be open and public. As was shown at the meeting Saturday evening there is absolutely no reason why this part of the county should not be created into a new county if the people want it. The people living in the proposed new county are the people who would be most effected by the division, financially and in every other respect, therefore if they wish to withdraw from the old county and form a new county, thereby reducing their taxes and bringing the officers nearer the people, they should by all means be permitted to do so. Such was the decidedly prevailing opinion of those attending the smoker, and upon a vote on the question of division there was not a dissenting voice. The people of this section want to improve the conditions in this section, and while so doing they are necessarily improving the conditions throughout the entire Lewiston-Clearwater country.

By creating a new county the farmers will be given better and closer markets for their produce and grain, and every town in the new county will be vastly benefited because of the increase of population and the impetus local government will give to the sale of real estate, and the better inducements it will offer to homeseekers.

A committee will be appointed by the president of the Commercial Club to visit Ahsahka, Peck, Nez Perce, Greer, Kamiah, Russell, Gilbert, and other towns in this section, with a view to getting together on county boundaries, and also of entering the campaign on a common understanding.

The Club will give another smoker in about a month, at which time it is expected there will be fully five hundred people present, and by that time it is hoped the matter of county lines will be definitely settled.

Those taking an active part in the evening's entertainment were: Attorney Ogden, who made an excellent presentation of the benefits of division, to all sections concerned; Patrick Blake of the boundary committee; E. N. Brown, Abe Hill, Bob Robinson, W. S. Cunningham, and County Treasurer Hinkley. Coffee and sandwiches was served during the evening.

President Peatman appointed Patrick Blake, Attorney Scott Ogden and A. E. Holmberg a committee to confer with the citizens of outside points on the present boundary line.

## Coughs of Children

Especially night coughs. Nature needs a little help to quiet the irritation, control the inflammation, check the progress of the disease. Our advice is—give the children Ayer's Cherry Pectoral. Ask your doctor if this is his advice also. He knows best. Do as he says.

### Ayer's

If you think constipation is of trifling consequence, just see your doctor. He will dissuade you of that notion in short order. "Correct it, at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable.

## AGRICULTURAL

### No More Working.

What the inventor says will be a great boon to small farmers, as the invention, if it is claimed, will do the work of six horses, is in use in California, but it can be adapted in any locality. It is a gasoline tractor and is a help in plowing, harrowing and harvesting. It will keep running as long as it is fed gasoline.

But with a two cylinder motor, the tractor has plenty of power. It has two speeds, forward and reverse, and is easily operated from an extension seat, from much the same position a driver would occupy with his team.

It is particularly an orchard tractor, having low, wide wheels, narrow tread, short wheel base and short turning radius. A special feature of the tractor may be driven from the seat of the ordinary wheel plow or harrow, enabling one man to drive and operate the levers of this plow and cultivator with perfect ease and convenience.

It is a one man machine, light in weight, with all control levers conveniently arranged. To obtain the greatest efficiency the front wheels are made the traction wheels; also the steering wheels. In the rear are smaller plain wheels, close together, with fanges to hold against side slipping, used simply as

THE HORSELESS CULTIVATOR.

trailers, to which the plow, cultivator, harrow or farm wagon is hitched the same as though coupled to the small wheels used on the rear of the ordinary tongue when plowing with a team.

The power plant is built in a stiff steel frame, mounted rigidly to the main axle, and is composed of a two cylinder opposed engine of standard make, rated at twenty-four horsepower.

Thumps in pigs are caused by a surplus of fat and a lack of exercise. The thumping is due to violent beating of the heart, causing shaking movement of the sides and flanks of the animal. Often it is so violent that the whole body trembles and shakes with the movements. In aggravated cases the pig is weak and uncertain in his walk, and lies down most of the time. Before death the nose, ears and other parts of the body become red and purple with congested blood, due to weak circulation.

Advanced cases of the thumps are difficult to cure. When first symptoms are noticed reduce the bedding if there is much in their sleeping quarters; reduce the feed and compel the pig to exercise in the open air. Fresh air will purify the blood and exercise will promote circulation. When pigs become fat and lazy they will lie in bed a great part of the time, often completely covered with bedding, so that they breathe impure air and dust. This poisons the blood and reduces the vitality in general, which, with compression of the heart with surplus fat, causes the malady.

In the spring or summer when pasture is good it is well to change pasture of hogs affected with the thumps so that they will be induced to take more exercise and eat grass freely. Reduce heavy feeding and keep the bowels of the animal loose by doses of castor oil. A little turpentine in the slop or drinking water is said to be good.

**In Free Timber Use Idaho Leads.**

The total cut of national forest timber during the year was nearly 460,000,000 board feet of which over 100,000,000 feet were given away under free-use permits says the secretary of agriculture in his last annual report which has just been made. The timber acquired under free-use permits was used by settlers, schools and churches within the forests. The secretary says that the receipts from timber sales were about \$700,000 and continue.

"Free use of timber was the heaviest in Idaho, with over 18,000,000 board feet, followed by Montana, Colorado, Utah and New Mexico, with amounts ranging from nearly 17,000,000 to less than 10,000,000 feet. California, Wyoming and Oregon had each a free-use cut of between 5,000,000 and 7,000,000 feet. The remaining national forest states follow with lesser amounts.

"Of the timber cut under sales, Montana furnished nearly 86,000,000 feet, or 24 per cent; Colorado, 44,000,000 feet, or 13 per cent; California, 39,000,000 feet, or 11 per cent; and Idaho, 35,000,000 feet, or 10 per cent. These amounts correspond to the following percentages of the estimated stand of national forest timber in each state: For Montana, three-tenths of 1 per cent; for Colorado, four-tenths of 1 per cent; for California, one-hundredths of 1 per cent; for Idaho, one-tenth of 1 per cent. In other words the cutting is far within the growth capacity of the forests."

**Lost, Envelope Full of Papers.**  
Lost on our streets last week, a large envelope full of legal papers. The finder can return the same to this office or J. K. Lewis at Alshaska and receive one dollar.

**Big Snow Storm.**  
As the result of a two day's storm which swept over this section the snow level here on a depth of 12 inches on the hill in the Russel and Gilbert sections the snow piled up in large drifts completely blocking the roadway in many places. In the Vollmer and Nesperce sections the storm on Monday had all the earmarks of a genuine Alaska blizzard. Traffic on the Grangeville branch was seriously impeded for some days as a result.

**Death of M. C. Harris.**  
Mrs. Frank Jones received the sad news this week that her father, M. C. Harris, had died in Alaska about February 25th. Mr. Harris was located at the head of the Nebesera river, four hundred miles inland, and the first word out by an Indian runner, carrying a note that stated he was ill and dying and to notify the family. This report was later verified by the family, who had hoped till the last that there might be some mistake. Mr. Jones was well known in Lewiston and the Gemma country, where he was highly esteemed as a citizen. He leaves a wife and four children to mourn his untimely death. The children are Mrs. Frank Jones, of Orofino; Mrs. Clayton Jones, of Nesperce; Ray Smith, and C. C. Harris, of Seattle. Mrs. C. C. Harris, Mrs. Ray Smith and Mrs. Clayton Jones arrived here last week with Mrs. Harris, but later returned to their respective homes.

**Grand M. W. of A. Contest.**  
The members of Modern Woodmen Camp No. 2860, Orofino, Idaho, have entered into a unique contest to increase the membership of the order. The camp has been divided into two parties captained by J. P. Gornah and E. D. Luttrupp and each side is trusting to beat the band. The penalty of the losing side is a supper to all to be given on the 15th.

**Ordinance No. 48.**

An ordinance granting a franchise to Oscar Austin, his heirs, executors, administrators and assigns, thirty feet by thirty feet on Fifth street at or near the intersection of Fifth street with the Clearwater river in the village of Orofino, Idaho, for the purpose of equipping, installing and maintaining a pumping station, in connection with a system of water works, for the purpose of supplying the inhabitants of Orofino, Idaho with water.

Be it Ordained by the Chairman and the Board of Trustees of the Village of Orofino, Idaho:

Sec. 1. That there is hereby granted to Oscar Austin, his heirs, executors, administrators and assigns, the consent of the Village of Orofino, Idaho, and the right, privilege and authority, to enter upon the southerly end of Fifth street at and near its intersection with the Clearwater river, and upon either side of said street as he may elect, and that may be most appropriate and beneficial for the purposes for which this franchise is granted, and take, use, occupy and control a tract of ground in said Fifth street 30 feet by 30 feet one side of which shall be upon the street line for the purpose of building, constructing, equipping and maintaining a pumping station, such building to be covered with fire proof material, for the supplying of water to the inhabitants of Orofino, and for such other uses and purposes as it may be desired to furnish water.

Sec. 2. That for the purpose of installing and maintaining such pumping station permission and consent of the village of Orofino, Idaho, is hereby granted to, and authority is conferred upon Oscar Austin, his heirs, executors, administrators or assigns, to enter upon such tract of land 30 feet by 30 feet as he may select, at or near the intersection of Fifth street with the Clearwater river, one side of which shall be upon the street line, for the term of thirty years from the time that this ordinance takes effect, for the purposes herein granted.

Sec. 3. That for the purposes herein specified the said Oscar Austin, his heirs, executors, administrators or assigns, shall have the right, and the consent and permission of the village of Orofino is given, and authority is granted, to make all excavation, erect such buildings and install such machinery and equipment as it may be deemed necessary for the purposes for which this franchise is granted, and generally to do any act or thing, erect any structure or equipment which may be deemed necessary for the purposes herein provided for.

Sec. 4. This ordinance shall take effect and be in force from and after its passage, approval and publication.
