BARNEY O'NEIL ANNOUNCES CANDIDACY

Wallace Man Outlines Position in Governatorial Campaign—Stands Squarely for Local Option and Fulfillment of Party Pledges—Stands for Efficiency and Economy in Public Service.

WALLACE, Idaho, Feb. 19— B. F. O'Neil, of Wallace, today formally announced the principles upon which he will appeal to the republicans of Idaho for nomination for governor. It will be noticed in Mr. O'Neil's announcement that he takes no part in recent radical propositions, and bases his candidature upon those sound principles which have placed the republican party in the commanding position which it now occupies. Mr. O'Neil stands for law observance, for the development of the state of Idaho along the legitimate lines of business enterprise, in which every man, be he capitalist or pauper, stands an equal chance of preferment, and has an equal opportunity to take advantage of the splendid opportunities which this western country offers to every man of ability and integrity.

In making his announcement, Mr. O'Neil said: "My friends throughout the state have urgently requested me to enter the primaries as a candidate for nomination for the office of governor, and after careful consideration of the conditions confronting the state today, I have concluded that, as a life-long supporter of the Republican party, it is my duty to accept the responsibility.

"My views on the affairs of Idaho are well known. As chairman of the republican committee of Idaho, I have had occasion to state those views, but in order that I may not be misunderstood on my opinion misrepresented, I will state in brief the principles for which I stand.

"I firmly believe in conducting the affairs of state in a business-like manner and free from political manipulation. I believe that appointive offices should be filled by men best qualified to do the work, and if I am elected I shall conduct the affairs under my charge on the principles which make for success in business—economy and efficiency.

Under the law, the new state central committee will have the responsibility of framing the party platform, but if I am nominated I shall insist on that platform standing squarely for local option and giving the existing law a thorough test of rigid enforcement.

"I am in favor of the equalization of taxation so that every county shall bear its full share of the burden. While I believe in a liberal maintenance of state institutions, I shall insist that the affairs of the state shall be so conducted that the rate of taxation shall be maintained at a minimum.

In regard to the Carey Act, I believe in the rigid enforcement of the provisions which protect the interests of the settlers.

"I believe that the anti-trust laws should be enforced, and the corporations doing business in the state of Idaho should be made to operate within the law. Encouragement should be given to all worthy enterprises, but the interests of the people must always be protected from monopolies. I am unalterably opposed to the exclusive control of water power by special interests as against the interests of the public.

"I am in hearty accord with the policies advocated by our former president, Theodore Roosevelt, and now being recommended to the national congress by President Taft, looking to the conservation of the national resources from wasteful exploitation.

"My best efforts will be directed to the ultimate end of building up in Idaho a great commonwealth in accordance with the Constitution of the United States, in which there is an equal opportunity for all citizens. I believe that the "Gem State" will become one of the most prosperous of the states of the Union, and if I am elected I shall endeavor to so conduct the affairs under my charge as to aid in the development of the State and the welfare of all its citizens."

Annual Meeting of the Needlework Club.

The annual meeting of the Needlework Club, at the home of Mrs. Givens, on last Friday afternoon, brought out the club's full attendance, each member exercising her privilege of bringing a guest.

The spacious rooms and hallway of the elegant mansion were handsomely decorated with evergreens and red white and blue ornaments in honor of the approaching holiday. Each guest represented a book, title and the living books were interesting and unique in the different ways of portraying their names. Among them were, "The Cruiser, The Light That Failed, Tale of Two Cities, Heart of Dixie, The Slim Princess, The Dollar Princess, Rosalind at Red Gate, A Certain Rich Man, Friday, the 13th, The Lady of the Decoration, Awakening of Helena Richie, East Lynne, The Shuttle, Letters of Gen. W. T. Sherman, The Virginian, First Violin, and many others equally good.

Guests were given an opportunity to test their athletic skill at the game of quoit alley for which the first prizes, a candy box in the shape of a girl rolling pin and a small lawn mower were awarded to Miss Armstrong and Mr. John Mix and consolation prizes, Miss Elsie Crockett and Miss Edith Olin.

A trip to the North Pole was taken in personally conducted parties who passed through many strange places but the pole once reached, no one was in doubt as to its being the pole.

The ones who most successfully guessed the names of the places passed through on this trip, were Miss Mabel Holmberg who received an airplane prize and Mr. Fred Linn who was made happy by a well stocked automobile, while Mr. White and Mr. Holmberg were given suitable consolation prizes.

The ladies of the club had provided refreshments which were served by the committee to conclude the entertainment.

Committee Visits Kamiah.

A committee, composed of Attorney Ogden, Patrick Blake and A. E. Holmberg, selected by President Peatman to visit the different towns included in the boundaries of the proposed new county, visited Kamiah Tuesday night and attended a called meeting by the citizens of that enterprising burg. The committee stated the plans of the division matter and a general discussion was indulged in by those present in regard to the proposed boundaries. There was no objection on the part of those present to the proposed new county and all voiced a feeling of friendliness to the proposition, and a resolution was offered and passed favoring the movement. It was thought, however by those at the meeting that the boundaries should be changed so that territory sufficient be taken in to protect the city in the matter of roads and grades. This matter will be taken up at some later date and adjusted to the satisfaction of all.

Celebrates his Fifty-first.

John Buscher, manager of the Orofino Mercantile Company, celebrated his fifty-first birthday Tuesday. Among other things Mr. Buscher received 51 silver dollars as a present from his three sons, Stephen, Rupert and Leo, a dollar for each year of his existence. John says that Washington, if he could see and appreciate things as they are on the 22nd, couldn't be a bit prouder or happier than he is on the occasion. Here in long life and many such anniversaries, John.

TAFT PARTLY WINS

CONGRESS SELECTS FOUR OUT OF NINE BILLS TO PASS.

Postal Savings, Injunction Reform and Statehood Bills to Be Passed—Amendments to Interstate Commerce Law Assured—This Is Program Agreed Upon at Whitehouse.

The following is the revised administration program, as now planned:

To Be Instantly Upon.

Interstate commerce law amendments. Postal savings bank.

Injunction reform.

Arizona-New Mexico statehood.

Amended.

Federal incorporation.

Alaska government reorganization.

Coal and oil land conservation.

Ship subsidy.

Increased second class postage.

Washington, Feb. 21.—Telephone bells in the executive offices and the senate committee rooms Saturday tinkled the knell of the large portion of President Taft's program.

Conferees at the White House and conference halls in the days of the past week culminating in a conference between the president and Senator Aldrich, Saturday afternoon, have resulted in the decision that four of the Taft program will become laws at the present session of congress.

Senator Aldrich and his lieutenants, recognizing that the country demands some constructive legislation, have agreed to pass the passage of the following measures, sidestepping the others:

The interstate commerce law amendment bill, the postal savings bank bill, the anti-injunction bill and the Arizona-New Mexico statehood bill.

STREET CAR STRIKE

FIERCE RIOT OCCURRED SUNDAY IN PHILADELPHIA.

Police and Firemen Called Upon to Quell Disturbance—Two Girls Are Wounded—Three Thousand Additional Police Sworn In—Sympathetic Strike May Result.

These are cash values involved in Alaska coal lands: Cinnaham coal fields, 5,000 acres. Minable coal in their neighborhood, 300,000,000 tons. Value of the tonnage, \$900,000,000. Cost of getting it out of the ground, \$700,000,000. Net profit to the exploiters, \$200,000,000.

Washington, Feb. 21.—Two hundred million dollars of profit in clean, solid cash is only a fraction of the colossal amount of exploitation of Alaska placed by the Guggenheim-Morgan syndicate, according to testimony in the Glavis-Bullinger administration investigation.

The audience before the committee on territories of the senate Saturday was fairly stunned when General March Birch of this syndicate revealed the figures of values at stake in this famous controversy.

At an earlier stage of the Canning-Bullinger affair it was vigorously denied by Bullinger's friends that the coal lands were of any extraordinary value.

In order, ostensibly, to clear their skirts of innuendo and allegations of improper connection with the exploitation of the richest domain in the United States, Morgan and Guggenheim came out into the open and so far, instead of helping Bullinger, they have helped only themselves and Glavis.

For the mere sum of \$250,000 Morgan and Guggenheim were, apparently, justifying themselves in the assistance of Cinnaham for the ultimate clean up of \$200,000,000.

One of the strongest of all the considerations in that respect is Cinnaham did not know that they were endeavoring to get lands which would make Morgan and Guggenheim immensely richer and that they were to sell for a magnitude of riches which would make them as rich as Monte Cristo.

A statement as startling as Birch's mountainous pile of figures was that the syndicate used no influence with congress or anywhere else to get possession of the richest domain in the world.

The plan pursued by the Morgan-Guggenheim altruistic combine was according to the testimony, simply to get A, B, C, D and all the other letters of the alphabet to buy up and patent parcels of the immense whole and when they had done so to turn it all over to X, Y, Z.

The Glavis-Bullinger inquiry is in full blast now, both before the special investigating committee and the committee on territories of the senate.

their entries and then turning their interests over to the company as soon as the patents were issued, gave the committee a clearer insight than it previously had as to one method by which syndicates, created for the purpose of obtaining the public domain and valuable mining lands, have been able to make a monopoly of what under the law is supposed to give every enterprising man an equal opportunity to discover and develop the riches that nature has concealed.

INTERESTING MINING NEWS.

Work on the Esperanza property in the Elk City district will start in a few days.

The gold strike made in the Morrow-Hanson property in the Elk City district, Idaho, is described as phenomenal.

H. H. McVey has arrived in Spokane from Missoula bearing good news of the Big Elk Mining company's property in the St. Joe grade of Idaho.

Six feet of high grade copper ore has been struck in the Conroy mine in the Newport district, on the Pond Oreille river of Idaho.

More than \$2,000,000,000 worth of mineral oil has been exported from the United States since that production began to be an article of exportation, less than a half century ago.

The Tom Thumb mine, located near Republic, which has been operated for the past two months by the New Republic company under lease, has transferred the lease to J. S. Mira.

Twelve feet of ore assaying 435 in copper and other metals to the ton is reported to have been penetrated by diamond drills on the ninth level of the War Eagle mine in the Bushard district, B. C.

Fifteen first motion engineers have arrived in Butte from the Black Hills and Colorado points to take the places of the engineers seceding from Western Federation of Miners there.

For first motion engineers are difficult to secure and the mining companies are not anxious to try any but the most experienced men on the 25 hoists, which are valued at \$250,000 in more mines.

The master mechanics on the Butte bill are now working with engineers trying to break them in. Four accidents have resulted in losing four of the largest shafts out of commission.

The Amalgamated is now hoisting 2,000 tons of ore in 24 hours, where the normal hoist is 15,000 tons. Forces at the Amazonda and Great Falls smelters are certain to witness the union differences are settled soon, the smelters will close and all the mines there will idle.

There are 5,000 miners out of work and about 5,000 smelters and other enterprises in the west are estimated at more than \$300,000 a day. Federation officials insist that if any mining is done in this camp it will be by workers all of whom are under the federation jurisdiction.

For Mine Bureau.

The national organization of the American Mining congress is urging the United States congress to the speedy enactment of a bill for the creation of a bureau of mines in the department of the interior.

The reasons why the bureau should be established are given at length in the regular monthly report of the mining congress for February and are briefly as follows:

- 1. Mining is a great national industry. 2. The losses in the mining and treatment of ores are enormous. 3. The waste of the mineral production of the United States is estimated at \$1,000,000,000 daily. The coal loss is 200,000,000 tons annually. 4. Low-grade minerals are being lost as thousands of mines are a thing of the past. 5. Human life in the mines must be protected. 6. Investigation and steps toward the elimination of these conditions could be better handled by the bureau than by the private companies, and calls for the highest scientific and technical skill.

The matter is now in the hands of congress and mining men are watching the developments closely.

Bodies Removed From Mine. Cherry, Ill.—Four more bodies were taken out of the St. Paul mine Saturday. This makes a total of 120 bodies recovered since the disaster of November 3. It is estimated that 173 bodies are yet to be found.

Washington.—At the treasury department the positive statement was made Saturday that there was no basis for the report that Secretary MacVeigh was contemplating retiring from office because of ill health.

SENATOR TILLMAN IN BAD SHAPE

Even if He Recovers He Will Have Partial Loss of His Speech.

Benjamin H. Tillman, senior senator from South Carolina, is critically ill at the national capital.

The senator's right side is almost wholly paralyzed and speech has developed as a result of a cerebral hemorrhage on the left side of the brain. He has almost lost the power of articulation, which is regarded as the most serious symptom. He may recover from the paralysis, but it is said he probably never will regain complete use of his speech. This is Senator Tillman's second stroke of paralysis. The first occurred nearly two years ago, when he suffered a nervous breakdown.

Favorable indications showed themselves Monday in the condition of Senator Tillman. The initial symptoms which caused partial loss of speech have abated and improvement has commenced, according to a bulletin issued late during the day.

JUDGE LAWLOR INSISTS ON TRIAL

Denies Motion to Dismiss Cases Against the Lawbreakers in San Francisco.

The conduct of the bribery-graft cases in San Francisco brought about another clash recently between Superior Judge Lawlor, who insists that the trials proceed, and District Attorney Charles Fickler, who has repeatedly attempted to secure the dismissal of the cases pending in Judge Lawlor's court.

Pickett moved that the indictments against Frank Drum and Mark Eugene De Saba, officials of the gas company charged with bribing supervisors during the Schmitz-Hier administration to vote for higher rates, be dismissed. Judge Lawlor promptly dismissed the motion.

GEN. MAUS SETTLES DISPUTE

Re-Assignment of Col. Abercrombie Is Announced.

Lieut.-Col. W. H. Abercrombie has been relieved of command at Fort George Wright, Wash., and ordered to regimental headquarters at Fort Lawton, Wash.

This action is taken in compliance with a submission to the secretary of war by General Maus, commanding the Department of the Columbia, and leaves Maj. M. T. Partello in command at Fort Wright. Abercrombie's transfer and relief from command, it is understood, puts an end to his suspension, recently ordered by General Maus.

LEOPOLD'S HEIRS IN QUANDARY

Mystery Surrounds Disappearance of Monarch's Wealth.

Brussels.—The deeper the heirs of King Leopold dig into the affairs of the deceased monarch, the more perplexing becomes the mystery of his fortune, and the heirs are asking themselves what became of Leopold's money which was disposed of before he made his will. It is known beyond any question of doubt that some disposition was made of a huge bulk of his wealth when he realized that the shadow of death was upon him, and the question is as to just what he did with it.

He will be in the French capital during the last few days of April. He will be in London May 15.

Zelaya Names U. S.

Former President Zelaya of Nicaragua announces from Spain that he is writing a book on the subject of Nicaragua in which, he said, he would prove that the revolution there is due to the unwarranted intervention of the United States, which "encouraged the discontented element of the country and furnished material aid whereby the revolutionists gained ground."

He declared that the American Grece and Cannon were executed because they had been found carrying explosives destined for use in blowing up Nicaraguan transports.

EGYPT'S PREMIER IS SHOT.

Student Fires Three Bullets Into Victim's Body.

Cairo, Egypt, Feb. 22.—Boutros Pasha, Cheli, Egyptian premier and minister of foreign affairs, was shot and seriously wounded by a student who was arrested. The student fired five shots, three bullets lodging in the premier's body.

Two of them, however, inflicted only superficial wounds. The bullets were extracted, and it is thought that the premier will recover and return to office.

The crime was entirely of a political nature, the assassin being a nationalist. He declared that his motive was the desire to avenge various acts of the government and the nationalist attribute personally to Boutros Pasha.

COMING THEATER ATTRACTIONS AT SPOKANE

THE AUDITORIUM, H. C. Hayward Post March at Riverside Ave. Mgr. High-Class Productions.—March 7—Schumann-Herik in concert.

March 8 and 9—Charles B. Harford in "An American Lord." March 10, 11 and 12—Mrs. Leslie Carter in repertoire.

March 20 and 21—May Robson in "The Rejuvenation of Aunt Mary."

THE SPOKANE, Chas. W. York, Mgr. Every Night—Popular Prices.—Have seats reserved by mail, sending a deposit to manager and stating what show you desire, name, seating attraction and date.

"Stubbins Cinderella." The attraction at the Auditorium for three nights commencing Thursday, February 24, with Saturday matinee, is Merit H. Singer's "quality musical play," "A Stubbins Cinderella," with Homer B. Mason featured.

"A Stubbins Cinderella" possesses a well defined and cleverly constructed plot; something very unusual in musical comedy. In fact, the piece could be presented, with all the musical numbers eliminated, and still make a very attractive theatrical offering.

Greatest Singer. One of the marvelous song-birds of all history will sing for people of the Island Empire on March 7. We refer to Schubmann-Herik, who is probably the greatest contralto singer on earth today. Comparisons are not necessary, but it may be said that a greater singer probably never dwelt on this earth—woman with the voice of an angel. Her rich organ tones reach the depths of the human soul. In a few years time will wear away that voice. Write for seats in advance.

"Brewster's Millions." A comedy melodrama "is what one critic called "Brewster's Millions," which will be seen at the Spokane theater all this week, and possibly no more of description of this play could be given.

Politeness pays enormous dividends on the investment.

ENORMOUS PROFITS

IN ALASKA COAL LANDS ACCORDING TO TESTIMONY.

Syndicate Only Expected to Realize \$200,000,000—Its Manager Give Testimony—Appears to Help Glavis and Bellitt Secretary Bullinger—Coal Lands Proved Very Valuable.

Philadelphia, Pa., Feb. 21.—Rioting in every section of the city followed the attempt of the Philadelphia Rapid Transit company to operate its lines here Sunday. Passengers and crews were driven from cars by infuriated mobs of strike sympathizers, and in nearly a score of instances the abandoned cars were burned or otherwise destroyed. At nightfall every car was withdrawn from service.

Stern measures were adopted by the police to quell the disorders. Scores of persons were arrested. Two women were hit by stray bullets and many injured persons were taken to hospitals.

Mayor Behrman has ordered Director of Police Clay to swear in 3,000 additional police and issue a proclamation enforcing the riot act.

The execution of the plan of the central labor union has pledged moral and financial support to the strikers. They also decided to call a sympathetic strike of every union man in the city in case the authorities put into effect their threat to operate the cars with policemen and firemen.

Riots Begins About Noon. In the morning cars were run on every line with little difficulty except in the mill district of Kensington, where cars were stoned by mobs. At 11 o'clock transit company officials announced that cars were running on the regular schedule. Shortly afterward riots were reported from scores of widely separated localities.

In the southern section a mob of boys drove a conductor and motorman from their posts and, after the four women passengers had left the car, set it on fire. The car following was stopped and the mob was being set on by a detachment of police and a chemical engine reached the scene.

Contradictory claims are made by the opposing forces as to the number of men on strike. Leaders of the Amalgamated Association of Street and Electric Railway Employees say that 6,000 of the 7,000 employees of the transit company have left their cars. Officials of the company say that 2,000 of their employees are on strike and that regular service will be resumed at daybreak tomorrow.

The importation of 175 strikebreakers from New York led to an attack on the bars and main offices of the transit company during the afternoon. Windows were broken by the mob, which was finally dispersed after 35 arrests had been made.

Record of Destruction. Transit officials say that 237 cars were wrecked, two completely burned and one partly burned. Two windows, six hundred and eight car windows were smashed.

Union leaders say they will force the company to arbitrate. They charge that the company has for months been subject of petty persecutions been endeavoring to force the union to strike and finally by discharging a large number of union men practically declared a lockout.

Strikers Very Bitter. Strikers and their sympathizers are displaying more bitterness against the company than at any time in the strike last summer. At no time in the former strike was the rioting so widespread, nor were so many persons engaged in attacking the cars.

Barney O'Neil Candidacy.
Barney O'Neil, republican State Chairman, has opened the race for governor and states the principles upon which he will ask the suffrages of the voters of his party in the county primaries. He declared for a business administration, free from political manipulation, and believes that state affairs should be conducted in an efficient and economical manner. He believes the present local option law should be rigidly enforced in order that its efficiency may be thoroughly tested before going to the extreme of prohibition or the abolishment of the law. The stand taken by Mr. O'Neil on equalization of state taxes is certainly a commendable one and should meet with the approval of all citizens both north and south. His views on the Cary Act should meet the approval of the settlers as the abuses of the past along this line are well nigh intolerable and should be remedied at once. His utterances along the lines of conservation are in accord with the Roosevelt policies and have the right ring to them. In fact this platform of principles on which Mr. O'Neil bases his claim to his party's suffrage is a manly, straight-forward declaration by a manly straight-forward man. No effort is made to deceive and win or lose Barney O'Neil will still retain the respect of every lover of fair play and justice within the borders of our commonwealth.

OROFINO IDAHO.

The attempt of the "drys" to subject the "wets" and the county prisonists approaches the height of absurdity. County division was in issue before local option was dreamed of. With all due respect to the honest temperance man, we think the cause is in poor shape, and not likely to be benefited by the present handling; whose only apparent object is self aggrandizement.

Money Plenty.

As an indication of prosperity among the farmers we have only to cite the fact that the public sale of W. Fifteen hundred dollars worth of goods was purchased and paid for on the spot. Can you beat this in any country?

In the District Court of the Second Judicial District, State of Idaho, in and for the County of Nez Perce.

Notice of Teachers' Examination. Avery G. Parmeter Plaintiff, VS. The State of Idaho Sundry Defendants.

To Avery G. Parmeter Defendant. You are hereby directed, that there is on file in this office of the Clerk of the District Court of the Second Judicial District, State of Idaho, in and for the County of Nez Perce, the complaint of the above named Plaintiff, a copy of which complaint is attached hereto. This action is brought to dissolve the bonds of matrimony heretofore and now existing between said plaintiff and defendant for a decree of the Court awarding plaintiff the care and custody of the minor children of said complaint as the issue of said marriage of Plaintiff and defendant, to wit: Charley Herold and Minnie Edna Parmeter.

Said complaint alleges that Plaintiff and defendant were intermarried at Des Moines, Iowa, on January 5, 1905, and at all times since have been and now are husband and wife; that Plaintiff is now and for more than six months last past immediately preceding the commencement of this action he has been continuously a resident of Nez Perce County, Idaho; that almost ever since the date of said marriage defendant has been addicted to the habitual use of intoxicating liquors, and since the summer of 1908 Plaintiff has used intoxicating liquors to such an excess that he has been a great portion of the time, incapacitated from the transaction of ordinary business; that continuously since the date of said marriage the defendant has used vile and vulgar language toward the plaintiff and called her vile names; that in the month of June, 1906, the defendant, without any cause or provocation on part of Plaintiff, struck her with his fists and knocked her down, and otherwise abused her; that in the month of June, 1908, defendant knocked Plaintiff down and beat her over the side and shoulder with a shot gun; that defendant has never provided Plaintiff or her children with the necessities of life; that Plaintiff has no children, to wit: Charley Herold and Minnie Edna Parmeter aged 4 and 5 years respectively; that defendant is not a fit or proper person to have the care and custody of said children, and that Plaintiff is a fit person to have such custody.

You are hereby directed to appear and answer said complaint within twenty (20) days after the service hereof upon you if served within said District, and within forty (40) days if served elsewhere, and unless you so appear and answer, the plaintiff will apply to the Court for the relief demanded in the complaint.

Attest my hand and the seal of the District Court of the Second Judicial District, State of Idaho, in and for Nez Perce County, this 15th day of January, 1910.

A Missouri clergyman had in his pastoral flock a member who was reluctant about making the contribution basket. The pastor had thrown out many bread crumbs, but to no avail.
One day the member fell ill and was taken to the Ensworth hospital. When the clergyman arrived the man was delirious. While the pastor was sitting beside his bed a wild yell of "Fire! Fire!" came from across the street. The sick man drew himself up on his elbows. "Where—where am I?" he asked excitedly.
"Calm yourself, brother," soothed the pastor, with just the faintest twinkle in his eye. "You are still at the Ensworth hospital!"

Stand and Stay Free.

Chicago—Paul O. Stensland, John A. Cooke, Mrs. Evelyn Romanik and other members of the Chicago colony of paroled convicts, together with hundreds of other paroled prisoners throughout Illinois, whose status has been in question since the supreme court declared that parole law unconstitutional, who have been half crazed with the suspense, will remain at liberty.

This became known when word came from Springfield that Governor Deneen unofficially declared that he would issue personal paroles for these prisoners inasmuch as they had obtained their paroles in good faith and had not violated them.

Chance for Young Men.

Boston—Any Christian young man in Idaho or North Dakota may now obtain a college education free by agreeing never, so long as he lives, to touch intoxicating liquor, tobacco in any form, or "other narcotics."
This premium on abstinence living is provided by the will of Charles Hotford, a Boston merchant, just filed for probate. He left more than \$100,000, and after making several minor charitable bequests, the will orders that the residue of the estate go to educate the youth of Idaho and North Dakota who will sign the pledge stipulated.

Ship With 124 Newlyweds.

The spoonsteeper ship that ever left New York was the Oceania, which sailed Saturday for Bermuda with 124 newlyweds aboard. There were 62 couples who had just been married and were going to Bermuda upon their bridal journey.

A bigamist married a woman, and one of the witnesses afterward admitted to the officiating clergyman that he had known of the bridegroom's legal inability to wed.
"But if you knew," said the clergyman, indignantly, "why didn't you tell me?"
"Well, parson, it was like this," the witness said: "One of the parties was eighty-three and the other eighty-seven. Says I to myself, 'Oh, gosh, it can't last long. Let 'em marry, and dura the law!'"
