Z. A. Johnson announces a temporary shut-down of the mill, and will begin the winter's run about August 1st. Mr. Johnson has recently struck an abundance of water at depth of 54 feet.

The recent hot weather has cut the prospects for the promised big crop for this year away short, say a good many farmers. The damage will not be so great as has been reported, however.

The creamery at Mohler has been leased by the Hazelwood people who will shortly take charge. The creamery is turning out a fine quality of butter, for which there is a steady and increasing demand.
